When you have a little bit
Something will come up

Scam of the Week[™] - [Caxirola](#) is the official [noisemaker](#) for FIFA World Cup 2014 Brazil and [Vuvuzela](#) say “you’re welcome.”

Password tonight is “Fowatza”. Peace, love and margaritas, I remain The Reverend Tony[™].

Polyticks - [Flood-control structure too high](#) is weird even for Austin.

The structure, stage left in the following curtesy of the American Spaceman, is part of the Waller Creek project and currently violates a Capitol View Corridor.

[Waller Creek project](#) is a big-ass flood control tunnel under Waller Creek so that Waller Creek flood plain can be developed such as [UT Dell Medical School](#) and [San Antonio River Walk](#) but called Creek Walk because Waller Creek is not a river.

PS to the madness, this flood control=development project will not recover one bit of water for Austin instead funneling floodwater=a lot of water into the Colorado river to the benefit of nobody but downstream of Austin.

PPS to the madness, City Council will pay as much as \$1.8 million minimum, to hire lawyers to sue everyone responsible for the violation(s). Hell Yeah! Damn Right!!

[Light, sweet crude](#) settled at \$101.50 up \$1.24. Natural gas is down to \$4.469. The [€uro](#) is down to \$1.3716.

[2 dead this week](#) in The War Without End, Amen™ = 21 for the year.
